

# ACI Awarded ISO 14001 Certificate to COSCO-HIT Terminals

COSCO-HIT Terminals (Hong Kong) Limited (CHT) has recently been awarded the ISO 14001 certificate by Accredited Certification International Limited (ACI), in “Container Terminals Operation.”

COSCO-HIT Terminals (Hong Kong) Limited, located at Terminal 8 East in Hong Kong's Kwai Tsing Port, is a member of Hutchison Port Holdings (HPH) Trust, the world's first container port business trust listed in Singapore, and also a part of Hutchison Ports Holdings Limited's (HPH) global network of port and logistics operations. As environmental protection has become one of the public concerns, CHT attaches great importance to the environmental issues. Obtaining the ISO 14001 demonstrated that CHT is making effort in establishing and maintaining an Environmental Management System to continually improve their environmental performance.

As the leader in third party certification body, ACI has experienced experts and professionals, providing professional and high value added certification and training services to our clients from different industry background. ACI would like to accompany her clients and to witness their success.
