ESG Certification: Driving Sustainable Excellence

Our ESG Certification scheme is an assessment and verification of Environmental, Social, and Governance (ESG) practices within an organization according to the established criteria. The Certification granted to an organization can demonstrate her commitment to sustainability and responsible business practices.

Benefits from ESG Certification

Improved Reputation and Brand Value:
To enhance your organization's reputation by demonstrating its commitment to environmental stewardship, social responsibility, and ethical governance. It is effective to show organization's dedication to sustainable practices, leading to increased trust and brand value.

Access to Investment and Funding Opportunities:
To attract socially responsible investors and open doors to sustainable finance options.

Competitive Edge in the Market:
To differentiate your organization from competitors. It showcases your commitment to sustainability and responsible practices, which can be a key factor for customers, partners, and clients when making purchasing decisions.

Risk Mitigation and Compliance:
To help identify and mitigate environmental, social, and governance risks within your organization. Following recognized ESG standards and frameworks, it enables organization to maintain efficient risk management practices, ensure compliance with regulations, and reduce potential liabilities.

Certification Application
Our ESG Certification is a 3-year certification cycle which include one Certification Audit and two Surveillance Visits. The methodologies include materiality assessment, document/record review, interview and site visits.

ISO's Conformity Assessment Standards related to ESG Certification

Organization may also consider to obtain the below ISO Standards to meet the requirements of ESG Report. By employing ISO's Conformity Assessment Standards in the assessment and verification of ESG reporting, organizations can enhance the credibility, transparency, and trustworthiness of their ESG disclosures.

ISO 9001 Quality Management System
ISO 14001 Environmental Management System
ISO 45001 Occupational Health & Safety Management System
ISO 50001 Energy Management System
ISO 14064 Greenhouse Gas Verification
ISO 26000 Social Responsibility Guidance
ISO 20121 Event Sustainability Management System
ISO 37001 Anti-Bribery Management System

Meanwhile, this can contribute to better-informed decision-making, improved sustainability performance, and more effective stakeholder engagement.

Certification Process

1. Client's enquiry and submit the application,
2. Client accept & sign Certification Contract
3. Materiality Assessment on ESG Reporting
4. Certification Audit ▶ Non-Conformance and Corrective Plan
5. ESG Certificate granted with 3-year validity
6. Regular Surveillance Visit
7. Reassessment before Certificate Expires

ACI become the appointed programme provider for the "Pilot Green and Sustainable Finance (GSF) Capacity Building Support Scheme" which is administered by the Secretariat of the Centre for Green and Sustainable Finance

In recent years, green and sustainability issues have been drawn much attention in the international community. In order to strengthen Hong Kong market players' capacity on Green Sustainable Finance (GSF), there is a critical need to expand the talent pool and enhance the capacity building for practitioners as well as prospective practitioners.

PILOT GREEN AND SUSTAINABLE FINANCE CAPACITY BUILDING SUPPORT SCHEME

The Pilot Green and Sustainable Finance Capacity Building Support Scheme (Scheme) aims to support talent development in GSF by providing subsidies to market practitioners as well as prospective practitioners in taking up relevant training and acquiring relevant professional qualifications.

ACI is delighted to announce that we become the appointed programme provider for the "Pilot Green and Sustainable Finance Capacity Building Support Scheme" which is administered by the Secretariat of the Centre for Green and Sustainable Finance. After completing eligible programmes, applicants can apply for a subsidy of up to 80% of the relevant fees subject to a ceiling of $10,000. Besides GSF approved subsidized, ACI also provides training fundings for our applicants, please contact our training department for further details. Reimbursement will be subject to ACI's final approval.

Here are our approved training courses:

1. Programme Name: Corporation Level Greenhouse Gas (GHG) Emissions Accounting and Verification (ISO 14064 Implementation Course)
2. Programme Name: Corporation Level Greenhouse Gas (GHG) Emissions Quantification and Reporting (ISO 14064 Implementation Course)

The ISO 14064 standards are designed to help organizations measure and manage their carbon footprint and demonstrate their commitment to addressing climate change.

Should you have any enquiries about our ISO 14064 or other training courses, please feel free to contact us via email: training@aci-limited.com or Tel: 3977 8988 or visit our website: https://www.aci-limited.com/en/training/ .

Elevate Your Skills: Privilege Discount for all ISO Training Courses to our VIP clients

We are delighted to announce an exclusive opportunity for our VIP clients to enhance your skills and knowledge through our ISO training courses. In order to allow our clients to facilitate company staff be familiar with various ISO management systems, ACI is now offering privilege discount to training programme for companies who have achieved ISO certification for 5 years or above.

The greater years of ISO Certification achievement, the greater discount will be offered:

Achievement years	Privilege Discount for all ISO training courses (exclude RTTP training)
25 years or above	30% Off
20-24 years	25% Off
15-19 years	20% Off
10-14 years	15% Off
5-9 years	10% Off

This offer will be valid until 31 December 2025 and it provides an exceptional chance to invest in your professional development and stay ahead of the competition. Don't miss out on this exclusive opportunity to unlock your full potential!

To take advantage of this exclusive discount, simply contact our training department and our representative will guide you through the enrolment process. Should you have any enquiries about our training courses details, you may contact our training department via email: training@aci-limited.com or tel: 3977 8988 or visit our website: https://aci-limited.com/en/training/ .

ISO 42001 Artificial Intelligence Management System (AIMS)

Artificial intelligence (AI) is a transformative technology. Its adoption across various industries and sectors, and has revolutionized over our lives and work. Organizations must ensure that AI is reliable, fair, transparent, trustworthy and accountable. To achieve this, the International Organization for Standardization (ISO) has published ISO/IEC 42001:2023 Artificial Intelligence Management

ISO/IEC 42001 is a certifiable AIMS, implementing it means putting in place policies and procedures for the sound governance of an organization in relation to AI, using the Plan-Do--Check-Act methodology. Rather than looking at the details of specific AI applications, it provides a practical way of managing AI-related risks and opportunities across an organization. It also helps to minimizes the potential risks and negative impacts associated with AI. It therefore provides value for any business or entity.

ISO/IEC 42001 is the world's first AI management system standard, it Emphasizes ethical principles and values such as fairness, non-discrimination and respect for privacy when deploying AI systems transparency, and continuous learning. For organizations, it sets out a structured way to manage risks and opportunities associated with AI, balancing innovation with governance. The goal is to help companies and society benefit the most from AI while reassuring stakeholders' expectations that systems are being developed and used responsibility.

To implement an AIMS, you will need a solid understanding of ISO/IEC 42001's requirements. We offer training to provide the required knowledge. Once the system is in place, we can provide a gap assessment. After the successful completion of an audit, we will issue your certificate, confirming the effective implementation of the standard's requirements.

Benefits:

- Ensures ethical and responsible use of artificial intelligence
- Enhances trust in AI applications
- Addresses Security, Fairness, Transparency, and Data Quality
- Supports compliance with legal and regulatory standards
- Balances Governance and Innovation
- Ensures Responsible Continuous Learning

Should you would like to have more information about our ISO Certification services, please do not hesitate to contact us via email: acics2@aci-limited.com OR tel: 3977 8988 OR visit our website: www.aci-limited.com.

ISO 20121: Sustainable Event Management for a Greener Future

ISO 20121 – Event Sustainability Management System, is a standard that has been designed to help all members of the event industry supply chain including hotel, organizers, event managers, stand builders, caterers and logistics suppliers to improve the sustainability of their event related activities, products and services. It can be applied to a single event or a venue.

The standard provides a framework to help identify the potentially negative social, economic and environmental impacts of events. Organizers can remove or reduce negative impacts through improved planning and processes. ISO 20121 is a systematic approach for addressing sustainable development issues in relation to event planning rather than an ad-hoc approach. It facilitates an improvement of sustainability performance.

ISO 20121 also includes practical guidance on communications, operational planning and control, stakeholder identification and engagement, supply chain management and procurement, and issue evaluation.

ISO 20121 not only enables event organizers to create attractive events to attendees but also it contributes to a more sustainable world. We highly recommend all hotel, event organizers/suppliers/consultants…etc. to apply ISO 20121 Certification as it definitely helps on your sustainable event management practices.

Should you have any interest with our ISO Certification, please do not hesitate to contact us via email: acics2@aci-limited.com or tel: 3977 8988 or visit our website: https://www.aci-limited.com/en/ .

ACI delivered ISO 27001:2022 Implementation and Internal Auditor Training Courses to Food and Environmental Hygiene Department – Information Technology Section

ACI recently delivered the ISO 27001:2022 Information Security Management System Implementation & Internal Auditor Training Courses to the staff of Food and Environmental Hygiene Department (FEHD) – IT Section.

ISO 27001 - Information Security Management System (ISMS) emphasizes the establishment of an ISMS, which is a systematic approach to managing sensitive information within an organization. The ISMS provides a structured framework for implementing and maintaining security controls, risk management processes, and continual improvement.

These courses base on the new version of ISO 27001:2022 to equip FEHD staff with essential knowledge, including understanding the requirements, implementation and conduction of internal audits. In the ISO 27001 implementation course, participants can understand the advantage and the documentation structures of ISO 27001 standard requirements, and help their companies get prepared for establishing ISO 27001 documentation.

With the ISO 27001 internal auditor training course, FEHD staff obtained practical skills on conducting internal audits of information security management system within organization. We also provide hands-on workshop which enables participants to practice the information security.

We are pleased to have positive feedback from our participants. They commented that the training materials are useful and easy to understand. They are able to apply the knowledge to the management system of their department which becomes more organized. Moreover, our class is interactive that participants can take part in role play or group discussion during the lesson.

These courses are recommended to those IT Practitioners, Auditors and Business Managers who are required to establish and enhance existing information security levels. Should you would like to have more information about our training courses, please do not hesitate to contact our training department via email: training@aci-limited.com or tel: 3977 8983 or visit our website: https://www.aci-limited.com/en/training/ .

ACI delivered ISO 9001, ISO 14001, ISO 45001 & ISO 22000 training courses to Kwong Wah Hospital, Kowloon Central Cluster, Hospital Authority

ACI is pleased to deliver two in-house training courses to Kwong Wah Hospital, Kowloon Central Cluster, Hospital Authority which they are: 1) Two-Day Understanding and Application on ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and ISO 22000:2018 and 2) Two-Day Internal Auditor Training on ISO9001, ISO 14001:2015, ISO 45001:2018 and ISO 22000:2018.

The integrated ISO Understanding and Application courses are designed to provide participants with a comprehensive understanding of a specific ISO standard and practical knowledge on how to apply its requirements within their organization. This includes understanding the purpose, scope, and benefits of implementing the management systems. Participants can gain insights into the key concepts, principles, and terminology used within the standard.

For our ISO Internal Auditor courses, it focuses on understanding the importance of internal auditing and the responsibilities of internal auditors. It also includes how to plan and organize an internal audit within its organization.

We trust that throughout the courses, the participants can develop the necessary skills to conduct effective internal audits of the specific ISO standard. If you are interested with our ISO training, please feel free to contact our training department via email: training@aci-limited.com or tel: 3977 8983 or visit our website: https://www.aci-limited.com/en/training/ .

Measurement Uncertainty for Evaluation

Course Code: TLM7

Laboratory Quality Management System ISO /IEC 17025:2017

COURSE AIM

To have a clear understanding of international regulatory authority regulations and gain the background knowledge to effectively plan on measurement uncertainty

ENTRY REQUIREMENT

This course is recommended for those interested in and currently working in testing laboratories, especially for technician / chemist who is performing the uncertainty measurement for new development testing method, operations manager, professional and technical staff, quality manager, internal auditor, authorized representatives and approved signatory.

identify the source of uncertainty for a test method.
understand the procedure to perform for the uncertainty measurement on testing.
apply the uncertainty result of testing method for decision rule.

GENERAL INFORMATION

Venue: ACI Training Venue
Duration: 1 Day
Language: Cantonese supplemented with English Material
Methodology: Presentation and experience sharing
Certificate: Certificate of successful Completion will be awarded to delegates who have attended full course

COURSE CONTENT

Measurement Uncertainty:
The principles

- Concept of measurement uncertainty and sources of errors.
- HOKLAS guidelines on estimation of measurement uncertainty
- Statistics for measurement uncertainty estimation

- Evaluation and calculation of an uncertainty budget in a test method using spreadsheets.
- General criteria for calculated uncertainty on a test method
- Establishment of decision rule

The Practices

- Using data from validation and PT result
- Case study on the Uncertainty measurement
- Calculation exercises

Emerging Technologies

"Decision rule" is introduced in the new version of ISO/IEC 17025:2017. The awareness of uncertainty and method validation are essential elements to establish a proper decision rule to identify the dispersion of the measurand. The confidence level and margin/boundary are used to identify the conformity of the result.

REMARK

After completion of all TLM1, TLM3, TLM5 & TLM6, he or she is eligible for applying Professional Certificate of Laboratory Technical Officer.

After completion of all TLM1, TLM3, TLM4, he or she is eligible for applying Professional Certificate of Laboratory Auditor.

ISO 27701:2019
Internal Auditor Training Course

Course Code: TPI04

Objective:

- To understand the audit requirements of ISO 27701 Privacy Information Management System (PIMS)
- To understand the privacy management principles and auditing process
- To learn the knowledge, skills and competencies required to conduct internal audit of a Privacy Information Management System (PIMS) based on the requirements of ISO 27701

GENERAL INFORMATION

Venue:	ACI Training Venue
Duration:	2 Days
Language:	Cantonese supplemented with English Material
Methodology:	Presentation and experience sharing
Certificate:	Certificate of successful Completion will be awarded to delegates who have attended full course

Who should attend?

- Those IT Practitioners, Auditors and Business Managers who are required to establish and enhance existing information security levels
- Anyone who involved in implementation and maintaining a PIMS and conduct internal audits for PIMS

Course Content:

- Key operational requirements of ISO 27701 PIMS and what areas should be audited
- Techniques and approaches required for performing an effective audit
- The audit relationship related to ISO 27001 and ISO 27002
- Audit approach and methodology, Audit Planning, Audit Preparation, Opening Meeting, Auditing, Auditing Reporting, Closing Meeting, Follow up on improvement action, Auditor attribute
- Certification Process and its necessary requirements

ACI present the ISO 27001:2022 Certificate to China State Construction Science and Technology Limited and Transcendence Company Limited

中國建築資訊科技有限公司
CHINA STATE CONSTRUCTION SCIENCE AND TECHNOLOGY LIMITED

海宏技術有限公司
TRANSCENDENCE COMPANY LIMITED

ACI is pleased to present the ISO 27001:2022 Certificate to China State Construction Science and Technology Limited (CSCST). This significant milestone highlights CSCST's commitment to maintaining the highest standards of information security and protecting sensitive data.

Based on the advantages of the parent company's (China State Construction International Holdings Limited) comprehensive resources, CSCST serves a number of landmark buildings in Hong Kong and Macao, providing a more complete and forward-looking BIM comprehensive solution for customers in the engineering construction industry, and becoming a leading technology company in the BIM consulting industry in Hong Kong and Macao.

Transcendence Company Limited was established in 2014, aiming to integrate and apply technology, such as big data, artificial intelligence (AI), cloud base analysis, Internet of things (IoT), ultra-wide-band positioning system, to the construction industry, society, commercial and daily life.

We highly recommend all IT or BIM based companies obtain ISO 27001 Certification as it brings many benefits for the organization. Should you have any interest with our ISO Certification, please do not hesitate to contact us via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

CSCST & Transcendence's achievement of ISO 27001 certification underscores its dedication to information security and client trust. By implementing internationally recognized best practices, they ensure the confidentiality, integrity, and availability of sensitive information throughout its operations. ISO 27001 certification provides CSCST & Transcendence with a competitive advantage, strengthens client relationships, and positions the company as a leader in the construction industry's digital transformation journey.

ACI presents the ISO 22000:2018 and Hazard Analysis and Critical Control Points (HACCP) Certificates to Pacific Club Kowloon

Congratulations to the Pacific Club Kowloon on being awarded both ISO 22000 and HACCP certifications! Achieving these internationally recognized certifications successfully demonstrates the club's commitment to food safety, quality, and customer satisfaction.

Opened in 1990, the Pacific Club, which was elected as Top 100 City Clubs for 2018-19 by the prestigious Platinum Clubs of the World, was conceived to bestow a prestigious private venue for Hong Kong's social and business communities. Today, the Club's extensive facilities, which encompass state-of-the-art sports, recreation, relaxation and dining venues, set it apart from the other private clubs in the region, presenting a magnificent setting for Members' entertaining and business needs.

PACIFIC CLUB

ISO 22000 is an internationally recognized standard for food safety management systems. The certification covers all aspects of the club's food-related processes, including sourcing, handling, preparation, and service. ISO 22000 ensures that the club has established systematic processes to identify, assess, and control food safety hazards, so as to reduce the risk of foodborne illnesses and enhance customer confidence.

Hazard Analysis and Critical Control Points (HACCP) certification is a globally recognized system for food safety management. It focuses on identifying and controlling specific hazards that can compromise food safety. By achieving HACCP certification, the Pacific Club Kowloon demonstrates its commitment to implementing effective control measures at critical points in the food production process.

ISO 22000 and HACCP Certification are applicable to organizations of all sizes operating within the food industry. Should you would like to know more about our ISO 22000 and HACCP Certification, please feel free to contact our customer service department via email: acics2@aci-limited.com or tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI presents the ISO 22000:2018, HACCP and GMP Certificates to Wright Life Pharmaceutical Limited

ACI is pleased to present the ISO 22000:2018 Certificate to Wright Life Pharmaceutical Limited, at the same time they also achieved the Hazard Analysis and Critical Control Points (HACCP) and Good manufacturing practice (GMP) Certificates for ensuring food safety.

In order to improve the health of people in our society, Wright Life Pharmaceutical Limited established the Wright Life® brand, adhering to the brand purpose of "global quality, maintaining health", to create high-quality nutritional health products and proprietary Chinese medicines.

Wright Life obtained ISO 22000:2018 Certification with the scope of "Manufacturing of Health food products (Hard capsule, softgel, powder, tablet". The certification solidifies Wright Life's position as a trusted provider of safe and wholesome food products, demonstrating its dedication to ensure consumer well-being. It also helps Wright Life demonstrate its proactive approach to food safety and commitment to implementing robust systems throughout its operations.

We highly recommend the organization within food industry to apply ISO 22000 Certification as it provides a comprehensive framework to ensure food safety, enhance quality, and foster consumer confidence. Should you have any interest with ISO 22000 Certification, please feel free to contact our customer service department via email: acics2@aci-limited.com or tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI is pleased to present the ISO 14001:2015 Certificate to Hong Kong Aero Engine Services Limited (HAESL)

ACI is delighted to present the ISO 14001:2015 Certificate to Hong Kong Aero Engine Services Limited (HAESL) with the scope of "Provision of aero gas turbine engine overhaul and piece parts repair service".

HAESL is a joint venture company between Rolls-Royce plc (50%) and Hong Kong Aircraft Engineering Company Limited (HAECO) (50%). She is one of the world's most respected engineering names offering the highest quality and most comprehensive engine repair and overhaul service to the customers.

By implementing the ISO 14001 standard's requirements, HAESL can demonstrate their commitment to environmental responsibility, achieve operational efficiencies, and contribute to a more sustainable future. ISO 14001 certification provide a comprehensive management system for HAESL seeking to integrate environmental considerations into their core business practices and gain a competitive edge in their industry.

Should you have any interest in our ISO Certification services, please do not hesitate to contact us via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI awarded the 15 Years Plus Caring Company logo under The Caring Company Scheme 2023/24

We are delighted to announce that ACI has awarded the 15 Years Plus Caring Company Logo under The Caring Company Scheme 2023/24. This is a recognition of the positive contributions of our company in the areas of "Caring for the Community", "Caring for the Employees" and "Caring for the Environment" over the past year(s).

The Caring Company Scheme, initiated by the Hong Kong Council of Social Service (HKCSS), is an esteemed program that encourages businesses to embrace CSR and make a meaningful difference in the community. By recognizing organizations that demonstrate good corporate citizenship, the scheme aims to foster a culture of giving, volunteering, and caring among businesses in Hong Kong.

ACI's recognition as a recipient of the Caring Company Logo through the Caring Company Scheme is a testament to the company's dedication to corporate social responsibility and its commitment to creating a positive impact in the community.

ACI's will continue actively contributing to the well-being of the community and its dedication to fostering a culture of care and compassion within the organization.
