ACI recognition by The Construction Industry Council (CIC) as a service provider for the Green Product Certification – GHG Validation & Verification Body (VVB)

ACI, is the Verification body for ISO 14064 Greenhouse Gas (GHG) Emissions Management System verification accredited by Hong Kong Accreditation Service (HKAS). ISO 14064 provides a comprehensive framework for measuring and managing GHG emissions, helping you identify reduction opportunities and enhance operational efficiency. Achieving ISO 14064 certification can set your company apart, providing a competitive edge in the market. Additionally, this verification can lead to cost savings through improved resource management and energy efficiency.

In addition, ACI is also the recognized verification body providing verification reporting service for the CIC Green Product Certification Scheme, which is owned by the Construction Industry Council (CIC), and the Hong Kong Green Building Council (HKGBC). This certification not only ensures compliance with international standards but also boosts your company's reputation as an environmentally conscious leader.

CIC Green Product Certification is a comprehensive approach which evaluates multiple aspects such as carbon footprint, greenhouse gases emission, human toxicity, resource consumption, ecosystem impact etc. It provides a transparent platform whereby all stakeholders are informed on the sustainable criteria. It will stimulate the industry to procure greener materials and products. Suppliers will be encouraged to take greener and more sustainable steps in their manufacturing processes. By creating a healthy competition, the industry will benefit and result in a far greener built environment.

Take the first step towards a greener future with ISO 14064 accredited verification & go for CIC Green Product certification by ACI. Show your commitment to sustainability and make a positive impact on the environment today. Should you have any interest in our above services, please do not hesitate to contact our customer service department via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com.

HONG KONG AS A GOURMET PARADISE! COMMITTED TO FOOD SAFETY

ACI was invited to support the 13th Anniversary Party of the International Food Safety Association and the 8th Food Safety Awards Ceremony

ACI is proud to announce that several of our esteemed clients have been honored their contributions and promote high standards, with the IFSA Food Safety Award in 2024.

For Food Safety Excellence Award, there are: 香港光美有限公司, Charity Organization Food for Good. For Food Safety Outstanding Award, there are: Po Tin Food Trading Company Limited, Tong Shun Hing Poultry (HK) Co. Ltd., Advanced Food International Limited, 樂園魚蛋專家, Mak's Holdings Limited

These awards underscore the dedication of our clients to maintaining the highest standards of food safety and quality. ACI is honored to support these organizations in their pursuit of excellence, helping them to achieve recognition for their outstanding food safety practices. Congratulations to all the awardees for their remarkable achievements and contributions to food safety!

Food safety is a paramount concern for everyone involved in the food industry, from producers to consumers. ACI's ISO 22000 Food Safety Management System is designed to ensure that food products meet the highest safety standards, protecting public health and enhancing consumer confidence.

ISO 22000 provides a comprehensive framework for a food safety management system that integrates seamlessly with existing quality management systems. It is applicable to all organizations in the food chain, including feed producers, primary producers, food manufacturers, transport and storage operators, and subcontractors.

One of the key benefits of implementing ISO 22000 is the ability to demonstrate a commitment to food safety to stakeholders, including customers, regulators, and suppliers. By adopting this standard, companies can improve their processes, reduce the risk of food contamination, and ensure compliance with legal and regulatory requirements.

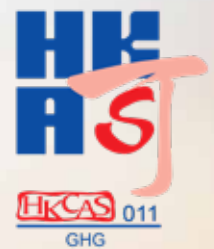

In an increasingly globalized food market, ISO 22000 certification can also provide a competitive advantage, opening doors to new markets and enhancing brand reputation. Ultimately, ISO 22000 is not just about compliance; it is about delivering safe, high-quality food products that consumers can trust.

Should you have any interest on our ISO 22000 verification services, please do not hesitate to contact us via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

SIGNIFICANT ACHIEVEMENT! AND A SHINING EXAMPLE FOR OTHERS TO FOLLOW ACI HAS BEEN AWARDED THE PRESTIGIOUS ISO 14064 GREENHOUSE GAS (GHG) EMISSIONS MANAGEMENT SYSTEM ACCREDITATION FROM HONG KONG ACCREDITATION SERVICE (HKAS)

We are thrilled to announce that we have been awarded ISO 14064-1 accreditation by esteemed Hong Kong Accreditation Body (HKAS). This remarkable achievement is a testament to our unwavering dedication to environmental excellence, sustainability, and operational integrity.

Receiving the accreditation from HKAS is a testament to ACI's expertise, credibility, and adherence to internationally recognized standards in greenhouse gas accounting and verification. This recognition is a significant milestone that reflects the hard work, expertise, and collective effort of each member of our team. It also positions us as a leader in sustainable business practices within our industry and beyond.

ISO 14064-1 is a comprehensive standard that outlines requirements for organizations to quantify and report their greenhouse gas emissions accurately. It specifies principles and requirements for designing, developing, managing, and reporting greenhouse gas (GHG) inventories and for verifying GHG assertions.

We provide robust Impartial and independent verification services at the highest standards of accuracy and integrity to organizations seeking to quantify and manage their greenhouse gas emissions in accordance with global best practices. Besides, we contribute to enhancing the credibility and trustworthiness of GHG information reported by organizations, thereby supporting global efforts to address climate change and promote sustainable practices.

As we celebrate this significant milestone, let us remain steadfast in our commitment to sustainability, environmental protection, and responsible business practices. Together, we will continue to make a positive impact on the environment and set a shining example for others to follow.

Should you have any interest on our ISO 14064-1 verification services, please do not hesitate to contact us via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

A New Look at website – ACI Unveils New IAF Accreditation Verification Page

Accredited Certification International Limited (ACI) has recently updated our official website with a new look of the IAF Accreditation verification page, which serves as a critical tool for verifying the authenticity of our accreditation. Stakeholders can confirm that the certifications issued by us are valid and comply with global accreditation rules. IAF Accreditation Verification has been established by the IAF and its members so accredited certifications from around the world can be validated.

In addition, our ISO 22000 Food and safety Management System, ISO 20000 Information Technology Service Management System, ISO 27001 Information Security Management System, ISO 37001 Anti-Bribery Management System, ISO 41001 Facility Management System, ISO 55001 Asset Management System **are accredited by International Accreditation Services (IAS) in United State of America.**

ACI's enhanced IAF Accreditation verification page highlights our commitment to maintaining high standards and providing reliable certification services. This recognition emphasizes our status as a globally recognized certification body, dedicated to excellence and integrity in certification practices.

This update highlights our role as an accredited conformity Assessment Certification body. We have already **gained accreditation by Hong Kong Accreditation Services (HKAS) in Hong Kong**, including ISO 9001 Quality Management System (QMS), ISO 14001 Environmental Management System (EMS), ISO 45001 Occupation Health and Safety Management System (OHSMS) & ISO 50001 Energy Management System (EnMS), ISO 14064 Greenhouse Gas (GHG) Emission Verification.

As an ISO Certification Body, we hold the distinction of being accredited for the highest number of accredited standards compared to any other certification body. This accomplishment reflects our unparalleled technical expertise, extensive service coverage, and unwavering commitment to delivering excellence across diverse industries worldwide.

With our broad recognition and commitment to quality, we are the ideal partner for your ISO certification requirements. Trust ACI to provide the expertise and assurance to achieve your certification goals and enhance your organization's reputation.

Should you have any interest in our ISO Certification and Verification, please do not hesitate to contact our customer service department via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com.

ISO publishes new revision of ISO 55001:2024 on Asset Management is a pivotal and highly significant development, replacing the original 2014 version

ISO 55001:2024 ("Asset management system – Requirements"), was published in July 2024, to replace the previous (first) 2014 version of the standard. The new revision is critical for advancing best practices in asset management, ensuring organizations worldwide remain aligned with the latest strategies, innovations, and global requirements for effective and sustainable asset management. Its overall structure remains largely unchanged, and continues to be closely aligned with that of other management system standards such as ISO 9001, ISO 14001 and ISO 45001. Several improvements and clarifications have, however, been incorporated as follows:

Clause 4.5 – Asset management decision-making and value

Contrary to earlier concerns, a "decision-making framework" can apply to the smallest of business through to the largest organizations as the requirement is completely scalable.

Clause 6.1.2 – Actions to address risks

In the context of asset management, risk can relate to an asset management and the organization as a whole. Subtle rewording of this section and the splitting out of 6.1.3 Opportunity brings clarity.

Clause 6.1.3 - Actions to address opportunities

In the revised version of 55001, risk and opportunity have been separated to remind stakeholders that risk and opportunity management are mutually supportive.

Clause 6.2.1 – Strategic Asset Management Plan ("SAMP")

Now in 2024 the SAMP is simplified and positioned as a key artefact to support organizational planning.

Clause 6.2.2 – Asset Management Objectives

Greater clarity has been provided in the considerations of asset management objectives to encourage upper management's understanding and engagement in the process.

Clause 7.7 – Knowledge

Reminds organizations that tacit knowledge in individuals supports organizational knowledge, which underpins competitive advantage and recognizes sustainability in an organization's people

Clause 8.3 - Externally provided processes, products, technologies, and services

Organizations acquire many forms of capability: processes, technology, products, and intellectual property, to name a few. This section of the standard was significantly rewritten to highlight the need for resourcing asset management objectives in any way.

This section is new to ISO55001. With the 2018 changes in ISO 55002 to preventive and corrective action it was agreed that "preventive" had lost its meaning in the context of an asset management system. Predictive Action can be anything that seeks to adapt changes internally, externally based on risk and opportunity, services, and/or assets.

Clause 6.2.3 – Planning to achieve asset management objectives

The planning considerations will help any organization reflect on the required resources which aligns to achieving a balance of cost, risk, and performance.

Clause 7.6 – Data and information

This new section of the standard emphasizes how data and information differ in an asset management context. Configuration is a key capability for any organization and a basis for decision-making, data, and information support both.

Clause 8.1 – Operational planning and control, including life cycle management

Operational planning and control is a required consideration, but for any system or service supported by assets, life cycle management forms the basis of decision-making from demand through to asset and service delivery.

Clause 9.3 – Management review

Management Review received subtle but meaningful changes by including the consideration of risk and opportunity, decision-making and improvement.

Clause 10.3 - Prediction action

The launch of the New ISO ESG Implementation Principles in November 2024 at COP29 marks a groundbreaking milestone

This development is of critical importance, offering a unified framework to drive global sustainability and responsible business practices forward

New freely available international guidance was launched on 14 November 2024 at COP29 by the International Organization for Standardization (ISO) to help organizations navigate the complex Environmental, Social, and Governance (ESG) landscape, comply with disclosure requirements, and accurately measure, report, and communicate their activities.

The new ISO ESG Implementation Principles offer global organizations actionable insights to streamline ESG practices, ensuring clear communication of sustainability efforts worldwide. With ESG regulations increasing by 155% globally over the past decade, these principles provide guidance for consistent reporting across all sizes and sectors, including small businesses, multinational corporations, ESG consultants, academia, research institutions, and NGOs.

Designed to support effective and transparent sustainability practices, the principles provide a standardized structure for organizations to achieve their ESG ambitions. By addressing environmental impacts (such as carbon footprint and waste management), social considerations (like diversity and human rights), and governance practices (transparency and regulatory compliance), organizations can adopt a holistic approach, encouraging sustainable growth strategies.

The ISO ESG Implementation Principles aim to enhance ESG performance management, bolstering measurement and reporting under existing disclosure frameworks. For more information, please visit ISO's official website: <https://www.iso.org/news/2024/11/esg-implementation-principles-launch>

Embracing ISO ESG standards not only sets organizations apart from their competitors but also paves the way for sustainable growth, improved performance, and enhanced credibility. Should you would like to know more information about ESG certification, please feel free to contact us via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

Hong Kong Examination and Assessment Authority appointed ACI to deliver Workshops on Leading Teams And Planning & Organizing It inspires training that enhances learning in any organization

We are pleased to announce that we have successfully conducted training session for Hong Kong Examination and Assessment Authority. This is not only underscoring our dedication to delivering top-notch specialized training but also establishes a new standard for quality and compliance in the education sector.

ACI's Leading Team Workshop training aims to equip middle management with the skills and knowledge necessary to lead high-performing teams, enhance team synergy, manage diverse workforces, and effectively handle conflicts.

Another workshop is about Planning and Organizing. Effective planning and organizing are crucial skills to ensure operational efficiency and strategic alignment within an organization. The training course encompassed key topics such as establishing priorities, organizing tasks systematically, monitoring progress by adjusting priorities, and eliminating tasks, highlighting best practices for effective planning and organizing.

We are committed to providing specialized training that sets new benchmarks for quality and compliance in the educational sector. Our training workshop is meticulously designed to help you master the art of prioritization and task organization, crucial skills for any professional.

Our trainers, with their wealth of experience, will share their best practices and tips, providing valuable insights that you can apply in real-world scenarios. ACI's training program is not just about learning; it is about transforming the way you approach your work and making a significant impact on your career.

Should you wish to explore training opportunities for your organization or have any inquiries, please do not hesitate to contact us. We can be reached via email: training@aci-limited.com or Tel: 39778983 or visit our website: <https://www.aci-limited.com/en/training/>.

ACI awards the ISO 45001:2018 Certificate to Citybus Limited – West Kowloon Garage (ISO 45001 a crucial standard for transportation service companies)

ACI is pleased to present the ISO 45001:2018 Certificate to Citybus Limited- West Kowloon Garage. She is a prominent bus service provider with a vast network of franchised and non-franchised routes across Hong Kong Island, North Lantau, and other regions.

By achieving ISO 45001 certification, Citybus Ltd. showcases her proficiency in Occupational Health and Safety, and with a focus on continual improvement. It serves as a testament on her commitment to Occupational Health & Safety in public transportation, and continually enhances her services to provide efficient, reliable, and sustainable transport solutions for the community.

ISO 45001 certification provides a comprehensive framework for improving occupational health and safety management systems. The certification can enhance the company's reputation, making it more attractive to clients, partners, and prospective employees. It also encourages a culture of continuous improvement in safety practices, contributing to long-term sustainability and operational efficiency.

Should you have any interest about our ISO 45001 Certification, please do not hesitate to contact us via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI awards ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 Certificates to Environmental Seal Corporation Limited Hong Kong's dedicated and well-regulated environmental corporation

ACI is pleased to present Environmental Seal Corporation Limited with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certificates for the scope of Certification "Provision of restoration services of landfills".

Environmental Seal stands as a bulwark against land and seawater pollution in Hong Kong. It is a leader in comprehensive landfill project management, offering end-to-end solutions. Its contributions span from fostering vegetation growth, safeguarding farming, to advancing reusable energy and other initiatives pivotal for urban growth and ecological balance.

The presentation of ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certificates to Environmental Seal Corporation Limited by ACI is a testament to the company's role of a beacon of trust and environmental responsibility to excellence, sustainability, and occupational health and safety. These certifications showcase Environmental Seal's dedication to quality management, environmental responsibility, and the well-being of its employees.

By achieving these milestones, Environmental Seal set new industry benchmarks for others to follow, ensuring every project undertaken echoes their commitment to the environment and the community of Hong Kong. The certifications not only enhance their reputation but also create a foundation for continuous improvement, customer satisfaction, and sustainable growth.

By obtaining ISO certification, your company can enhance its credibility, promote continuous improvement, and secure a competitive edge in the market. Should you have any interest in our ISO Certification, please do not hesitate to contact our customer service department via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com.

ACI awards ISO 37001:2016 Anti-Bribery Management System Certificates Federation of Hong Kong Industries (FHKI)

ACI is pleased to present Federation of Hong Kong Industries (FHKI) with ISO 37001:2016 Anti-Bribery Management System Certificates for the scope of Certification “Membership Relations Management, Intellectual Property Registration and Certificate of Origin Issuance at head office”

FHKI as the statutory industrial organization in Hong Kong, promotes and fosters the interests of Hong Kong's industrial and business communities. FHKI represents a wide range of industries,

advocating for business interests and providing support to enhance the competitiveness of Hong Kong's industrial sector

Recently, ACI awards ISO 37001:2016 Anti-Bribery Management System certificates to FHKI, marking a significant milestone. ISO 37001 is an international standard designed to help organizations implement robust anti-bribery measures. For public and non-profit organizations like FHKI, ISO 37001 demonstrates a commitment to ethical practices, enhancing the organization's reputation and trustworthiness. It ensures compliance with relevant anti-bribery laws and regulations, reducing legal risks.

Moreover, the certification helps identify and mitigate bribery risks, promoting transparency and integrity, implementing anti-bribery measures can lead to more efficient operations and cost savings. It reassures stakeholders, including clients, partners, and employees, of the organization's dedication to ethical conduct.

By obtaining ISO 37001:2016 certification, FHKI not only adheres to stringent anti-bribery standards but also sets a high benchmark for other organizations. This commitment to ethical practices enhances their reputation and fosters a culture of integrity and accountability within the industry. Their dedication to transparency and anti-bribery measures inspires other companies to follow suit, thereby promoting a more ethical and trustworthy business environment in Hong Kong.

Should you have any interest in our ISO Certification, please do not hesitate to contact our customer service department via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI awards ESG Environmental, Social and Governance Certification to UNION TECHNICAL SERVICES LIMITED

ESG certification is crucial for all industries

ACI recently awards ESG Environmental, Social, and Governance Certification to Union Technical Services Limited. In a competitive repair landscape, Union Technical Services Limited distinguishes herself as a leader by obtaining ESG certification.

ESG certification is crucial for all industries because operational activities can have significant environmental implications, such as waste generation, resource consumption, and emissions. ESG certification encourages companies to adopt sustainable practices. This helps mitigate environmental impact and demonstrates a commitment to sustainability, which can significantly enhance reputation and attract environmentally conscious clients and investors.

Additionally, ESG certification fosters a positive Social Pillar, such as workplace culture, boosting employee morale and productivity. Overall, it positions companies as leaders in sustainability, opening new business opportunities and partnerships. Being ESG-certified can be a key differentiator in a competitive market and attract good social, environmental and governance conscious customers.

ESG certification also concern on Governance Pillar, including ethical business practice with more stakeholder engagement, more evaluation and identification and control of risks. It also includes the establishment of anti-corruption & anti-bribery policy and well control on customer privacy protection and data security.

Investors are increasingly factoring in ESG criteria when making investment decisions. Companies with strong ESG practices may find it easier to attract funding and investment, which can support business growth and development.

Should you would like to know more about our ESG Certification services, please do not hesitate to contact us via email: acics2@aci-limited.com or Tel: 3977 8988 or visit our website: www.aci-limited.com .

ACI's Compassionate Gesture: Supporting Hing Nam Care Home Through Generous Donation

In a heartwarming display of corporate social responsibility, Accredited Certification International Limited (ACI) has demonstrated its commitment to giving back to the community by extending a helping hand to Hing Nam Care Home (City One) Ltd. With a deep-rooted ethos of compassion and support for those in need, ACI has stepped forward to make a meaningful difference in the lives of the residents at the care home.

Hing Nam Care Home, nestled in the heart of City One, Shatin, is a sanctuary for the elderly, providing a safe and nurturing environment for seniors who require specialized care and attention. The facility stands as a beacon of hope and comfort for many individuals, offering not just physical support but also emotional solace to those who call it home.

Through this donation, ACI has not only provided financial assistance but has also extended a message of solidarity and care to the residents and staff of Hing Nam Care Home. The contribution serves as a testament to ACI's core values of empathy, community engagement, and the belief in creating a more inclusive and supportive society for all. It is a reminder that by working together and supporting one another, we can create a brighter and more compassionate future for all.

ACI's support for Hing Nam Care Home is just one example of the company's ongoing efforts to contribute to the betterment of society. The company is dedicated to continuing its efforts to give back, support meaningful causes, and make a positive impact on the world around it.

All the above donations been greatly assisted and arranged by the Professional and Social Services Association (PASS). Thanks for the PASS's full support and assistance.
