DEMYSTIFYING SRAA

Your Gateway to Government-Grade Cybersecurity

In an increasingly digitised world, safeguarding sensitive information is no longer optional—it is a strategic imperative. Enter SRAA, or Security Risk Assessment and Audit, a comprehensive framework established by the Hong Kong SAR Government to ensure organisations meet rigorous cybersecurity standards.

SRAA is a two-part process combining a Security Risk Assessment (SRA) and a Security Audit (SA). The SRA identifies, analyses, and evaluates potential security risks within your IT infrastructure, while the SA reviews the effectiveness of existing security measures, policies, and controls. Together, they provide a holistic view of an organisation's security posture, benchmarked against the Hong Kong Government's Baseline IT Security Policy (S17) and its detailed implementation guidelines (G3).

Your Organisation Need SRAA for handling sensitive data—especially those working with or funded by the government—SRAA is essential. Its primary benefits are compelling:

Proactive Vulnerability Identification

It helps pinpoint weaknesses in systems and processes before they can be exploited, allowing for timely remediation.

Enhanced Compliance

It ensures alignment with evolving legal and regulatory requirements, reducing the risk of penalties.

Strengthened Stakeholder Confidence

Demonstrating a commitment to independent, government-aligned security assessments fosters trust among clients, partners, and the public.

ACI: Your Trusted Partner in Security Assurance

With deep understanding of the Hong Kong regulatory landscape and a team of qualified professionals, ACI is well-positioned to guide you through the SRAA process. We deliver thorough, independent assessments to various Critical Infrastructure (CI) operators in Hong Kong that not only meet compliance standards but also provide actionable recommendations to fortify their defenses for the challenges ahead.

Should you have any interest on ACI's "Security Risk Assessment and Audit & ISO 27001 Certification and Training ", please do not hesitate to contact us via email: **acics2@ACI-limited.com** OR Tel: **3977 8988** OR visit our website: **www.aci-limited.com**.

CHAMPIONING INTEGRITY:

The New ISO 37001:2025 Anti-Bribery Standard

Bribery remains a significant global challenge, eroding trust and damaging reputations. To combat this, the updated **ISO 37001:2025 Anti-Bribery Management System (ABMS)** standard provides organizations with a robust framework to prevent, detect, and respond to bribery risks effectively.

Why Adopt ISO 37001:2025?

The benefits of implementing this standard are substantial. It helps organizations reduce legal and financial risks by proactively managing bribery threats. It also protects corporate reputation by preventing corruption scandals and builds stakeholder trust through a demonstrated commitment to ethical practices. Ultimately, it improves governance and ensures seamless compliance with global anti-bribery regulations. **Companies like Able Engineering, CR Construction, Federation of Hong Kong Industries (FEKI) and government department like DSD (Sewage Charges Division), EMSD, ASD, have already certified to this standard.**

建築署 Architectural Services Department

華營建築有限公司 CR CONSTRUCTION COMPANY LIMITED 浙建集團

機電工程署 EMSD

Drainage Services Department
The Government of the Hong Kong Special Administrative Region

The 2025 new revision introduces key updates, placing a stronger emphasis on ethical leadership and a culture of integrity. It integrates climate change considerations into risk assessments and provides clearer guidance on managing conflicts of interest. The standard is now better aligned with other ISO management systems, like ISO 9001, facilitating smoother integration.

How ACI Can Guide Your Organization

We offer comprehensive support, including gap analysis to clarify your current standing against the new requirements and identify priority actions. Our expert auditors provide accredited certification services, verifying your system's effectiveness and issuing a globally recognized certificate.

We also offer tailored training courses to expand your team's knowledge of ISO 37001:2025. By partnering with ACI, you gain a trusted advisor dedicated to helping you build a resilient, ethical, and trustworthy organization.

Should you have any interest on ACI's "Certification & Training Service", please do not hesitate to contact us via email: **acics2@ACI-limited.com** OR Tel: **3977 8988** OR visit our website: **www.aci-limited.com** .

ACI UPDATE

ACI once again for being awarded the Testing and Certification Manpower Development Corporate Award (Gold Award) 2025-26 organised by the Hong Kong Council for Testing and Certification (HKCTC)

香港檢測和認證局
The Hong Kong Council for Testing and Certification

ACI is proud to announce our achievement of the Testing and Certification Manpower Development Corporate Award (Gold Award) in the HKCTC's 2025-26 Award Scheme. This prestigious recognition, supported by the Innovation and Technology Commission, celebrates our unwavering commitment to advancing human capital excellence within Hong Kong's T&C sector.

Our participation across both award categories—Corporate and Excellent T&C Professional—showcases our holistic investment in sustainable talent development. **It highlights our strategic initiatives in comprehensive workforce training, innovative HR practices, and fostering a culture of continuous learning, all aligned with the industry's evolving standards.**

This accolade provides enhanced credibility and visibility, affirming ACI's leadership role. More than an honour, it reinforces our core mission: to cultivate a skilled, resilient talent pipeline that drives sustainable growth and integrity for the entire Hong Kong T&C industry. We thank our entire team for their dedication, which turns our commitment into award-winning reality.

We thank our entire team for their dedication, which turns our commitment into award-winning reality.

ELEVATING EXCELLENCE:

ACI's CQI & IRCA Certified 6-Day Combined Lead Auditor Training for ISO 14001:2015 and ISO 45001:2018

Saving you 4 days in total

ACI is proud to offer a unique CQI & IRCA Certified ISO 14001:2015 (EMS) and ISO 45001:2018 (OHSMS) Combined Lead Auditor Training Course, a comprehensive six-day programme designed for professionals seeking to master integrated management system auditing. Instead of taking separate 10 day courses for ISO 14001 and ISO 45001, this combined training covers both in just 6 days – saving you 4 days in total.

The programme covers essential topics including the requirements and structure of both standards, core auditing principles aligned with ISO 19011, and techniques for conducting integrated audits efficiently. Participants gain practical skills in identifying and managing environmental aspects and impacts, as well as occupational health and safety risks. The course also addresses non-conformities, corrective actions, and integrated audit reporting.

Ideal for aspiring lead auditors, health and safety managers, environmental professionals, and consultants, this course provides a streamlined pathway to dual-standard competence. Successful participants who pass the continuous assessments and final online examination receive a CQI & IRCA certified certificate, fulfilling the training requirements for lead auditor registration. Those who do not pass the exam still receive an attendance certificate.

With 48 hours of interactive learning, case studies, and role-playing exercises, ACI ensures participants are well-prepared to lead audit teams across multiple disciplines. The course is available in both online live virtual and in-person attendance formats, with Cantonese delivery supplemented by English handouts.

To learn how our expert-led training can be tailored to your business needs, please contact us to schedule an introductory consultation via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

ADVANCING FOOD SAFETY EXPERTISE:

ACI Delivers CQI & IRCA FSSC 22000 V6.0 / ISO 22000:2018 Lead Auditor Training to Kwong Wah Hospital

(This training is available in both Online (Live Virtual) or In-Person Attendance)

ACI has recently successfully delivered a five-day CQI and IRCA FSSC 22000 V6.0 / ISO 22000:2018 Lead Auditor Course for Kwong Wah Hospital, part of the Hospital Authority, this training programme represents a significant milestone in strengthening food safety management capabilities within Hong Kong's public healthcare sector.

Designed for food safety professionals seeking to perform first, second, and third-party audits, the course equipped participants with the knowledge and skills to audit Food Safety Management Systems (FSMS) against ISO 22000. The comprehensive curriculum covered essential topics including audit principles, planning and preparation, non-conformity identification, reporting, and effective follow-up. Participants also gained practical insights into HACCP and OPRP implementation, operational controls, and regulatory compliance.

Upon successful completion of continuous assessments and the qualified final online examination, participants will receive a CQI and IRCA certified certificate, fulfilling the training requirements for lead auditor registration. This engagement builds upon ACI's extensive track record of delivering accredited training to public sector organizations, including numerous IRCA-certified courses for government departments across Hong Kong.

CQI | IRCA

ACI remains dedicated to advancing professional competence and food safety excellence across all sectors.

To learn how our expert-led training can be tailored to your business needs, please contact us to schedule an suitable training via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

ISO/IEC 42001

Artificial Intelligence Management System (AIMS)

Artificial intelligence (AI) is a transformative technology. Its adoption across various industries and sectors, and has revolutionized over our lives and work. Organizations must ensure that AI is reliable, fair, transparent, trustworthy and accountable. To achieve this, the International Organization for Standardization (ISO) has published ISO/IEC 42001:2023 Artificial Intelligence Management Systems (AIMS) on December 18, 2023

ISO/IEC 42001

ISO/IEC 42001 is the world's first AI management system standard, it Emphasizes ethical principles and values such as fairness, non-discrimination and respect for privacy when deploying AI systems transparency, and continuous learning. For organizations, it sets out a structured way to manage risks and opportunities associated with AI, balancing innovation with governance. The goal is to help companies and society benefit the most from AI while reassuring stakeholders' expectations that systems are being developed and used responsibility.

ISO/IEC 42001 is a certifiable AIMS, implementing it means putting in place policies and procedures for the sound governance of an organization in relation to AI, using the Plan-Do-Check-Act methodology. Rather than looking at the details of specific AI applications, it provides a practical way of managing AI-related risks and opportunities across an organization. It also helps to minimizes the potential risks and negative impacts associated with AI. It therefore provides value for any business or entity.

To implement an AIMS, you will need a solid understanding of ISO/IEC 42001's requirements. We offer training to provide the required knowledge. Once the system is in place, we can provide a gap assessment.

- Ensures ethical and responsible use of artificial intelligence
- Enhances trust in AI applications
- Addresses Security, Fairness, Transparency, and Data Quality
- Supports compliance with legal and regulatory standards
- Balances Governance and Innovation
- Ensures Responsible Continuous Learning

After the successful completion of an audit, we will issue your certificate, confirming the effective implementation of the standard's requirements.

BEYOND ISO/IEC 27001:

Why Your Business Needs ISO/IEC 27017 for Cloud Security

In an era where most organizations will face a cloud security incident, relying on generic controls is a major risk. As digital transformation accelerates, the shared, virtual nature of the cloud creates vulnerabilities that traditional frameworks miss.

Unlike generic standards, ISO/IEC 27017 covers the full lifecycle of cloud assets—from secure configuration and virtual machine hardening to the safe removal and return of data when a service ends. It ensures that cloud operations are not only compliant but provably secure, auditable, and resilient by design.

ISO/IEC 27017 is not a standalone certification. It acts as a supplement to ISO 27001. To achieve ISO/IEC 27017, an organization must either already have an ISO/IEC 27001 certified ISMS or undergo a combined audit for both standards simultaneously. As cloud adoption grows, success depends on moving beyond generic checklists to cloud-native governance. ISO/IEC 27017 provides the blueprint.

ISO/IEC 27017 addresses this gap. While ISO/IEC 27001 was built for on-premise environments, ISO/IEC 27017 is designed for the cloud. It clarifies the Shared Responsibility Model by defining exactly who is responsible for what—eliminating the ambiguity that leads to

Published in 2015, ISO/IEC 27017 extends ISO/IEC 27001 and 27002 with 7 new controls and enhanced guidance on 37 others. It covers the full cloud lifecycle, from secure configuration to safe data removal.

Whether you are a SaaS vendor, a financial institution, or a healthcare provider, achieving ISO/IEC 27017 certification offers a significant competitive advantage

1. Eliminate Ambiguity in the Shared Responsibility Model

2. Enhanced Risk Management for Cloud-Specific Threats

3. Build Trust and Support for Regulatory Compliance

4. Reduce the Costs of Incidents

Should you have any interest on ACI's "Certification & Training Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

STRENGTHENING RISK MANAGEMENT CAPABILITY:

ACI to Deliver ISO 31000 Training for Kwong Wah Hospital

廣華醫院
Kwong Wah Hospital

ACI has been engaged to deliver a comprehensive ISO 31000:2018 Risk Management training programme for Kwong Wah Hospital. This demonstrates our continued commitment to enhancing professional competency across Hong Kong's public healthcare sector.

Scheduled for late March 2026 at Kwong Wah Hospital premises, the training programme aims to equip hospital staff with practical knowledge to understand risk management principles, implement systematic risk assessment processes, and conduct effective internal audits in accordance with the international standard.

Drawing upon ACI's decade-long experience in delivering management system training to healthcare institutions, the programme will employ interactive methodologies. Participants will gain valuable insights into risk identification, analysis, evaluation, and treatment, enabling them to strengthen the hospital's risk management framework and contribute to organizational resilience.

This engagement builds upon ACI's proven track record with the Hospital Authority, having previously delivered numerous ISO 9001, ISO 14001, ISO 45001, and ISO 22000 training programmes for Kwong Wah Hospital, Hong Kong Red Cross Blood Transfusion Service, and other public healthcare institutions. ACI remains dedicated to providing professional, customized training solutions that enhance service quality and operational excellence across Hong Kong's healthcare sector.

ACI remains dedicated to providing professional, customized training solutions that enhance service quality and operational excellence across Hong Kong's healthcare sector.

To learn how our expert-led training can be tailored to your business needs, please contact us to schedule an introductory consultation via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

ENHANCING QUALITY EXCELLENCE:

ACI Delivers ISO 9001:2015 Training for Hong Kong Examinations and Assessment Authority's Examination Systems Unit

香港考試及評核局
Hong Kong Examinations and Assessment Authority

ACI has successfully delivered a Divisional Training - Requirement Training Course on ISO 9001:2015 for the Examination Systems Unit (ESU) of the Hong Kong Examinations and Assessment Authority (HKEAA) . Conducted in February 2026 at the Tsuen Wan Assessment Centre, this engagement further demonstrates ACI's commitment to supporting public sector organizations in strengthening their quality management capabilities.

The training programme, was designed to provide participants with a comprehensive understanding of the ISO 9001:2015 standard and its requirements for establishing, implementing, maintaining, and continually improving a Quality Management System (QMS). The curriculum covered key concepts, standard structure, essential terminology, and practical approaches to responding to auditor inquiries, illustrated through ESU-specific queries and real-world scenarios relevant to the unit's operations.

Drawing upon ACI's extensive experience in delivering management system training to government departments and public bodies, Participants gained valuable insights into applying ISO 9001:2015 principles to their existing processes, enabling them to contribute effectively to the Authority's quality objectives.

With a proven track record spanning government clients such as the Hong Kong Housing Authority, Drainage Services Department, and Electrical and Mechanical Services Department,

ACI continues to bring deep sector expertise to every engagement. This training for HKEAA reflects our ongoing dedication to equipping public sector professionals with the practical knowledge and skills needed to drive continuous improvement and service excellence.

To learn how “ISO 9001 certification & training” can be tailored to your business needs, please contact us to schedule an introductory consultation via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

MASTERING MEASUREMENT PRECISION:

ACI Delivers ISO/IEC 17025:2017 Training for The Hong Kong University of Science and Technology (HKUST)

ACI successfully delivered a public training course on ISO/IEC 17025:2017 Measurement Uncertainty in March 2026 at the HSEO Laboratory, The Hong Kong University of Science and Technology (HKUST) . This marks another milestone in ACI's commitment to advancing laboratory excellence through professional education.

Participants gained comprehensive knowledge covering the principles and practices of measurement uncertainty, including error sources, HOKLAS guidelines, statistical approaches, and both top-down and bottom-up estimation methods. Practical sessions involved uncertainty budget calculation using spreadsheets and real-world case studies utilizing validation and proficiency test data.

A key focus was the "decision rule" concept introduced in ISO/IEC 17025:2017, enabling laboratories to determine conformity with appropriate confidence levels. Upon completion, attendees received an e-Certificate of Successful Completion, with eligible CPD hours recognized by professional bodies.

This course forms part of ACI's comprehensive laboratory training pathway, supporting career advancement in laboratory management and technical competence across Hong Kong's testing community.

To learn how our expert-led training can be tailored to your business needs, please contact us to schedule an introductory consultation via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

SAFEGUARDING TRANSPORT INFRASTRUCTURE:

ACI Engaged for SRAA for Tsing Sha - TIML MOM LIMITED

ACI is pleased to be engaged for an upcoming Cyber Security Assessment – SRAA project for the Tsing Sha Control Area, operated by TIML MOM LIMITED. This planned engagement will represent a significant step in reinforcing the security posture of one of Hong Kong's key transport infrastructure assets.

ACI's methodology aligns with industry best practices, the assessment will culminate in a comprehensive final report delivering prioritized remediation recommendations tailored to the operational realities of this critical transport infrastructure.

This project demonstrates ACI's capability to serve clients with complex, legacy environments requiring specialized cybersecurity expertise.

We look forward to contributing to the ongoing safety and security of Hong Kong's transport network.

Should you have any interest on ACI's "Security Risk Assessment and Audit Service", please do not hesitate to contact us via email: acics2@aci-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

ELEVATING RESIDENT EXPERIENCE:

ACI Delivers Independent Opinion Survey for Pano Harbour

ACI is pleased to announce the successful completion of a comprehensive Resident Opinion Survey for Pano Harbour, a premier residential development in Kai Tak, engaged by Jones Lang LaSalle Management Services Limited (JLL) . This independent assessment underscores ACI's expanding capability in delivering data-driven insights beyond traditional management system certification.

The survey was designed to systematically gather resident feedback regarding the quality of services provided, serving as a critical foundation for evaluating current performance and formulating targeted enhancement strategies. Utilizing a structured methodology, the study evaluated resident satisfaction across key service domains.

Beyond quantitative metrics, ACI's methodology captured rich qualitative commentary, identifying both service excellence. The final comprehensive report delivered to JLL featured detailed analysis, graphical performance indicators, and strategic recommendations for service optimization. This engagement exemplifies ACI's commitment to professional and customized services.

As a listed contractor of Hong Kong's Census and Statistics Department and the Hong Kong Housing Authority, ACI brings rigorous research methodology and analytical depth to property management, empowering clients with the independent intelligence needed to elevate resident experiences and operational excellence.

Should you have any interest on ACI's "Independent Survey Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

SUSTAINING OUR COMMITMENT:

ACI Continues to Support the Green Partners Campaign

ACI is pleased to confirm its continued participation in the Green Partners Campaign for the period from 1 April 2026 to 31 March 2027. Organized by the Environmental and Ecology Bureau, which is responsible for the policy functions of the former Environment Bureau to consolidate the polices and work related to environmental protection, conservation of natural ecology, as well as environmental hygiene, food safety, agriculture and fisheries and animal welfare, etc. The Green Partners Campaign encourages organizations to measure and reduce their greenhouse gas emissions through systematic carbon auditing, contributing meaningfully to Hong Kong's journey toward carbon neutrality.

環境及生態局
Environment and Ecology Bureau

Carbon Audit碳審計
綠色夥伴 Green Partner

Since joining the campaign, ACI has embraced carbon audit as a practical tool to understand our environmental performance, identify areas for improvement, and implement targeted reduction measures. Through the transparent sharing of our carbon reduction progress on the campaign website, we aim to inspire others within the business community to take similar steps.

Carbon auditing enables organizations to quantify their emissions, set realistic reduction targets, and track progress over time. By utilizing resources such as the carbon audit excel template and emission estimators available on the Carbon Neutrality and Sustainable Development website and the Hong Kong Monetary Authority platform, businesses can effectively manage their environmental footprint.

ACI remains committed to embedding sustainability into our daily operations. By continuing our journey as a Green Partner, we reinforce our dedication to responsible environmental stewardship and contribute to the collective effort in combating climate change for a greener, more sustainable Hong Kong.

Should you have any interest on ACI's " ISO 14064 Green House Gas (GHG) Verification and Training Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com

A SHARED JOURNEY IN SOCIAL RESPONSIBILITY:

ACI Receives Advanced Performance Recognition at the Caring Company Scheme 2024/25 Ceremony

ACI was delighted to be invited to the Caring Company Scheme 2024/25 Recognition Ceremony, held on 22 January 2026 at the Hong Kong Convention and Exhibition Centre.

This recognition celebrates ACI's outstanding contributions to sustainable development and our commitment to building a caring and inclusive society.

The event featured five sessions across the day, allowing participating organizations to connect and celebrate their achievements. Beyond the official group photo session, representatives explored dedicated feature areas, including a showcase of the Scheme's evolution and a caregiver support exhibition highlighting innovative services from NGOs and social enterprises. Themed photo zones also provided an opportunity to capture this proud moment.

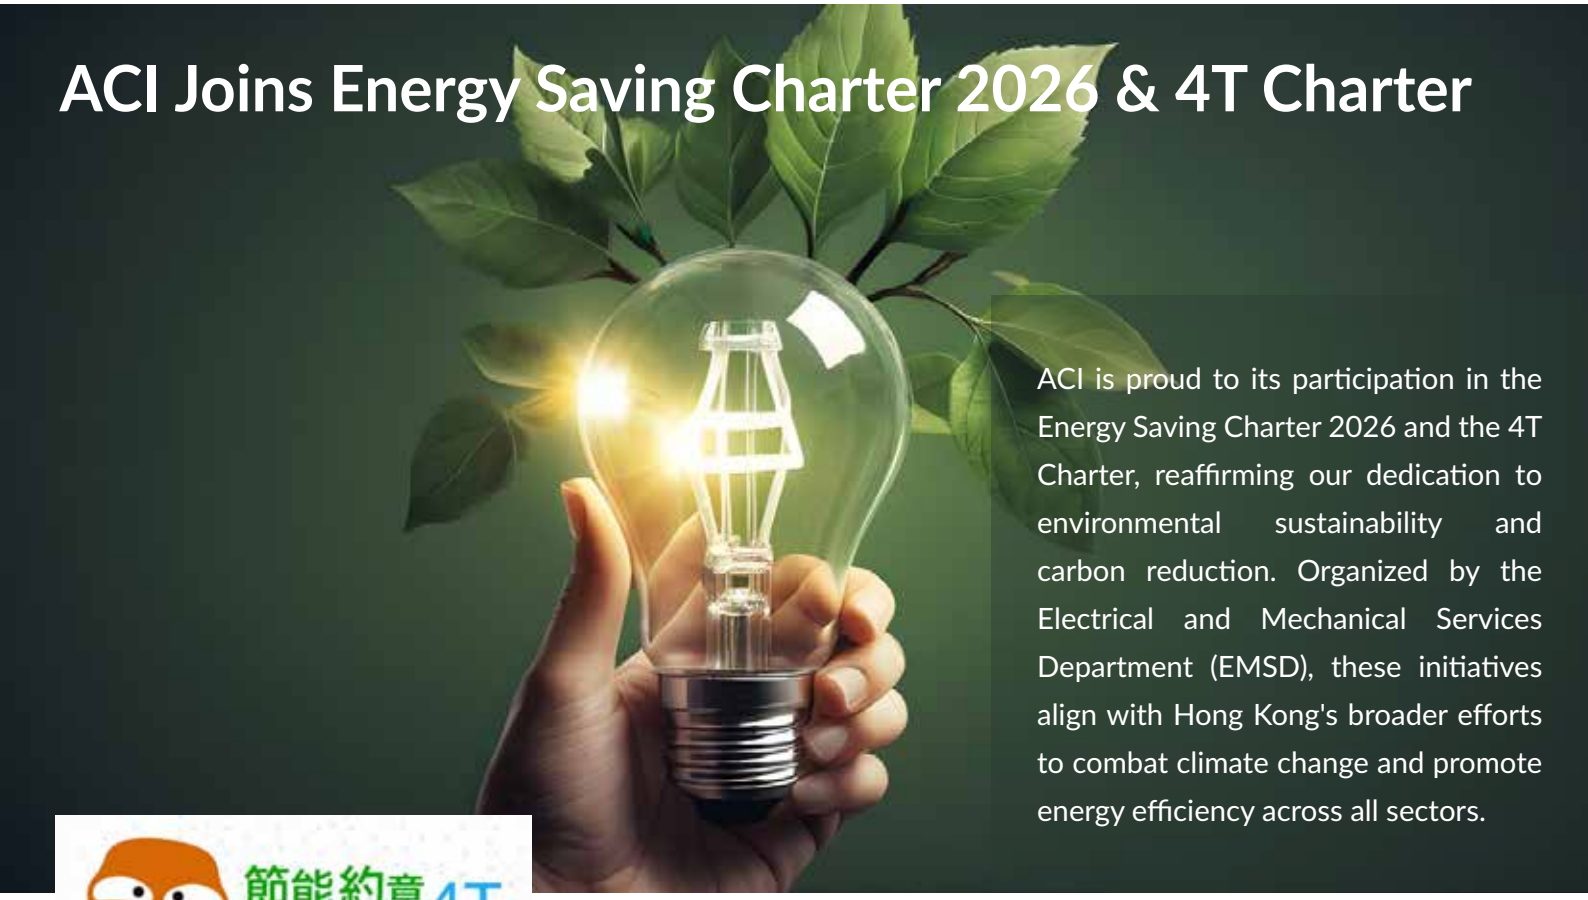
As a recipient of the Advanced Performance logo, ACI is honored to be recognized among a community of organizations dedicated to corporate social responsibility. Our continued participation in the Caring Company Scheme reflects our belief that business success goes hand in hand with social contribution—from supporting employee well-being to engaging with community partners.

ACI extends our gratitude to The Hong Kong Council of Social Service for organizing this meaningful event and to all stakeholders who support our journey. We look forward to deepening our commitment to social responsibility in the years ahead.

Should you have any interest on ACI's "ISO 26000 Social Responsibility and ESG Certification and Training Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

COMMITTING TO A GREENER FUTURE:

ACI Joins Energy Saving Charter 2026 & 4T Charter



ACI is proud to its participation in the Energy Saving Charter 2026 and the 4T Charter, reaffirming our dedication to environmental sustainability and carbon reduction. Organized by the Electrical and Mechanical Services Department (EMSD), these initiatives align with Hong Kong's broader efforts to combat climate change and promote energy efficiency across all sectors.

Since its launch in 2012, the Energy Saving Charter has attracted over 3,400 signatories in 2025, demonstrating the growing commitment of business and community organizations to energy conservation. As a signatory for 2026, ACI pledges to maintain an average indoor temperature between 24-26°C during summer months, switch off electrical appliances when not in use, procure energy-efficient equipment, promote renewable energy adoption, and engage our staff in adopting energy-saving practices collectively.

Under the 4T Charter framework—comprising target, timeline, transparency, and together—ACI commits to setting energy-saving targets with clear timelines, ensuring transparency in our energy performance data, and encouraging our team to work together toward these shared goals. This structured approach enables us to track progress meaningfully and contribute tangibly to Hong Kong's sustainability journey.

By joining these charters, ACI demonstrates that responsible environmental stewardship is integral to our operations. We look forward to collaborating with fellow signatories to drive positive change and build a more sustainable future for our community.

Should you have any interest on ACI's "ISO 50001 Energy Management System Certification and Training Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .

CHAMPIONING GREEN COLLABORATION:

ACI Supports 2026 Macao International Environmental Co-operation Forum & Exhibition (2026 MIECF), hosted by the Macao SAR Government

The global push for sustainability requires collective action, and the 2026 Macao International Environmental Co-operation Forum & Exhibition (2026 MIECF) stands as a premier platform driving this mission. Hosted by the Macao SAR Government from 26 to 28 March 2026 at The Venetian Macao, this year's event adopts the theme, "Low-carbon, Zero Waste Cities: Embarking on a Global Collaboration". A key highlight is the inaugural "Zero-Waste Circular Economy Exhibition Zone," showcasing innovations across the green energy industry chain.

For the fifth consecutive year, MIECF will operate as a certified carbon-neutral professional exhibition, reinforcing its commitment to sustainable practices. The event offers unparalleled access to opportunities across the Greater Bay Area, Pan-Pearl River Delta Region, "Belt and Road" countries, Europe, and Portuguese-speaking nations.

As an organization deeply committed to corporate social responsibility, ACI actively supports initiatives that advance environmental sustainability. Through our work in ISO 14001 environmental management, ISO 50001 energy management Certification services and training, and ISO 14064 Green House Gas (GHG) Verification services, we help organizations maintaining operational excellence while reduce their environmental footprint.

ACI believes that sustainable development is not merely a regulatory requirement but a collective responsibility—one that requires genuine collaboration across sectors to build a resilient, low-carbon future for generations to come.

Should you have any interest on ACI's "ISO 14001 environmental management, ISO 50001 energy management Certification services and training, and ISO 14064 Green House Gas (GHG) Verification services and Training Service", please do not hesitate to contact us via email: acics2@ACI-limited.com OR Tel: 3977 8988 OR visit our website: www.aci-limited.com .
