ISO 37001 Anti-Bribery Management System Standard Certification

ISO 37001 is designed to help an organization establish, implement, maintain and improve an anti-bribery compliance program or management system. It includes a series of measures and controls that represent global anti-corruption good practice.

The standard require an anti-bribery policy, procedures, and controls, top management leadership, commitment and responsibility, senior level oversight, anti-bribery training, risk assessments, due diligence on projects and business associates, reporting, monitoring, investigation and review, corrective action and continual improvement.

The standard is flexible and can be adapted to a wide range of organization, including large organizations, SMEs, public and private sector organizations, and NGOs.

Benefits

- Designed to be integrated with existing management processes and controls
- Provide minimum requirements and supporting guidance for implement the management system
- Provide assurance to investors, employees, customers that the organization is taking steps to prevent bribery risk
- Simple to use
